# What is New Year Bull

**Max. 2.1 million supply  
31-12-2020.  
That is why we are  
called  
New Year Bull**

## HIGH BURN RATE

We burn 99 % of the supply.

Maximum Supply in 2021 will be 2.1 million.

By New Year's evening of 2020, we will have a maximum supply of 2.1 million.

## TEAM

We are a team of professionals from the Blockchain and Finance sector, who are passionate about blockchain technology and cryptocurrencies.

## MEME

The New Year Bull is a token with a high burn rate but also a meme.

## MISSION

To create a token with limited supply and increased value bringing returns to the community.

# Tokenomics

## NEW YEAR BULL

One of our goals is to be in the Top 5 of this Ethereum burn address.

When we are in this Top 5, we know that the Bull is happy and one thing is important, you need to make sure the Bull is happy

<https://etherscan.io/address/0x0000000000000000000000000000000000000001>

After this is met, will we go for the 0 address.

When we reach \$1, will we have daily \$1 Million Burns and that will create some hype and Bull Marketing.

# What is Defi Bull Insurance Will be activated in Q1 2021

**Many DeFi projects are giving a monthly ROI of +200 %, we believe we are better off getting a piece of that and spreading the risk.**

## INSURANCE / BUY BACK

We are will be selling tokens in 2021 and then converting these to other projects, mainly listed on Uniswap.

## INSURANCE

We have an extra security and riskprofile, when we hold 20 other projects as support for our project. We will spread the risk.

## STATISTICS AND INSIGHT

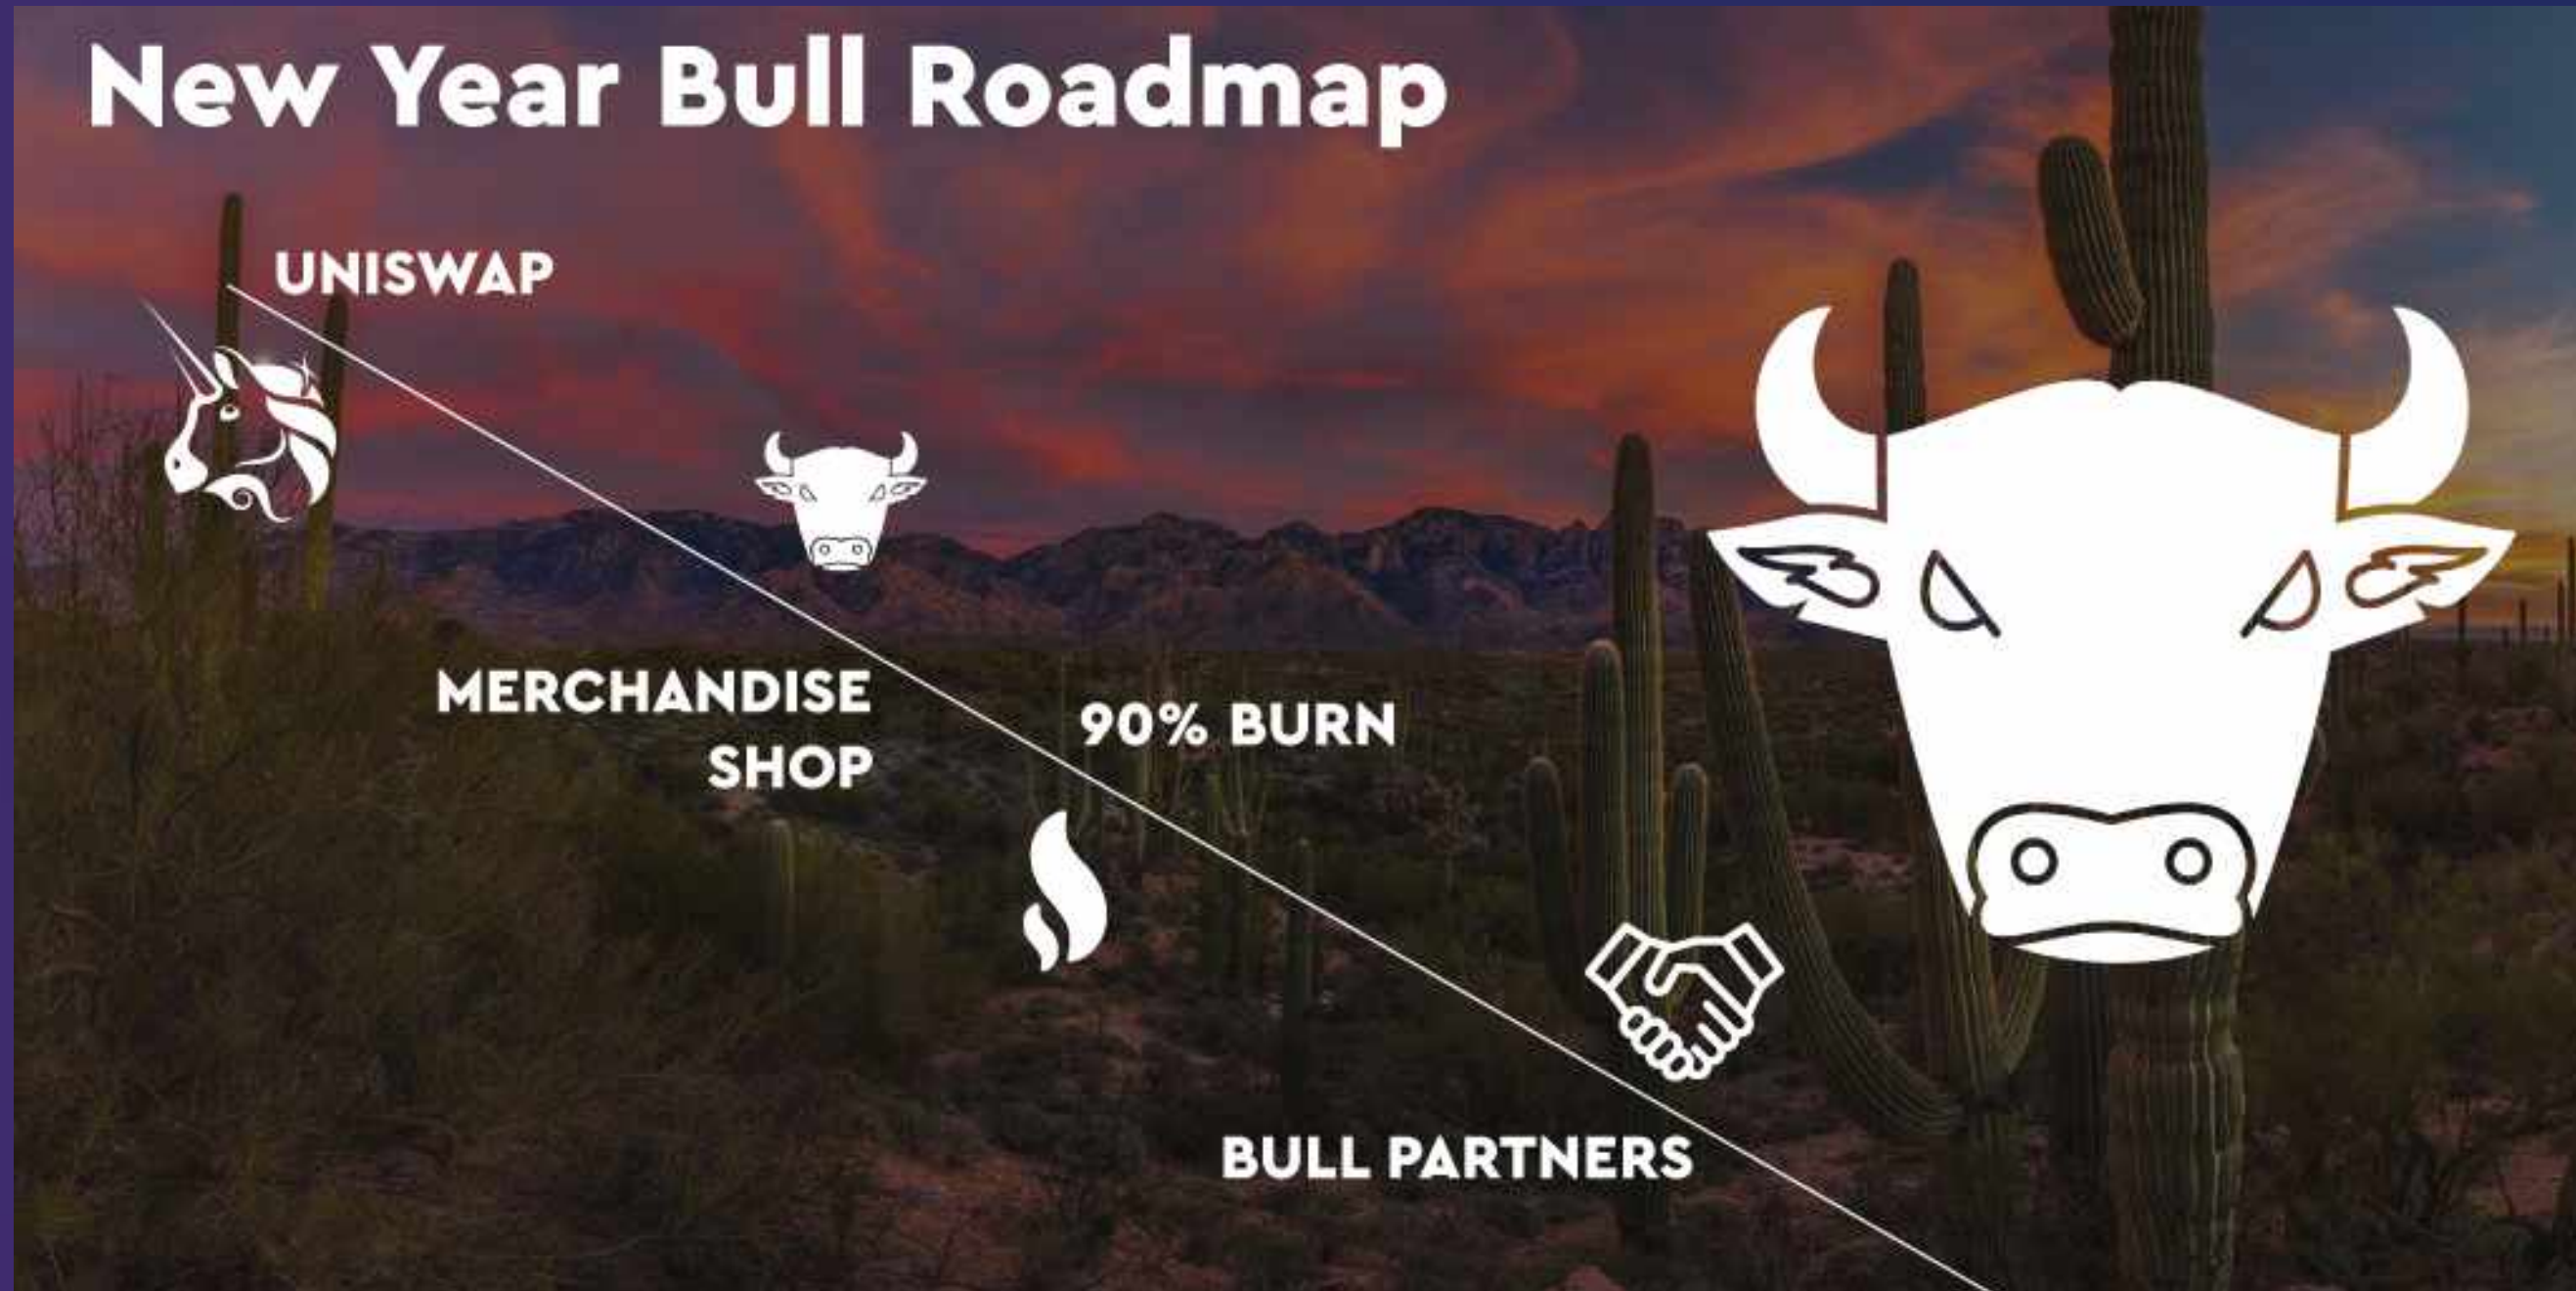

Monthly statements about which coins we have bought and at what holding we have, will follow.

## BUY BACK

We will start the first Buy Back in Q1 2021. Meaning that we would have to sell some of our holdings in other tokens.

# Roadmap: New Year Bull

This is the old roadmap, burn is now 99 % and we have launched NYB DeFi before 2021.
